

EXCELLING IN RF ENGINEERING

When reliability, resilience and high performance are the core requirements for your RF signal distribution...

ETL Systems will provide the solution.

COMPACT L-BAND ROUTERS

ETL's compact router range covers 50 - 3000MHz frequency range with enhanced flatness, increased linearity and high resilience.

All features can be custom built to meet different functionality requirements and stringent RF parameters.

VARIABLE GAIN L-BAND AMPLIFIERS

High performance variable gain Alto amplifiers provide compensation for cable and other system losses, and offer resilient solutions for satellite teleports, TVRO and head-ends.

WEB ENABLED L-BAND SPLITTERS

The Dextra range of professional L-band Splitters offers excellent RF performance and a wide range of features.
