

*The perfect solution*

*The perfect synchronisation*

*Your answer for 4k transmission*

**XVE9310**

**HVD9130**

**HVD9130** and **XVE9310** performs low latency and compressed video transmission with NTT Electronics' High End Encoder family.

In addition, it supports 4k transmission with multiple units (4 units) and can decode completely synchronized 4k contents without an external synchronizer.

**HVD9130** is also available with DVB-S2 Demodulation option.
